

LANEWAY TREATMENT TRIAL

FACT SHEET: STAGE 3 PART 1

In early 2019, Council began trialling treatments in 11 laneways across three Palmerston suburbs to assess if the measures taken will help discourage anti-social behaviour in these areas.

Following community feedback, Council is proposing to modify the treatments by adding either temporary full-time or night-time closures to seven of the laneways included in the trial.

Please see the map overleaf for the laneway locations.

NEXT STEPS

Once your feedback is gathered by Council and depending on resident's views, the additional trial treatments are expected to be put in place from the end of November 2019 to March 2020.

After this time the measures will be reviewed by Council and next steps will be considered.

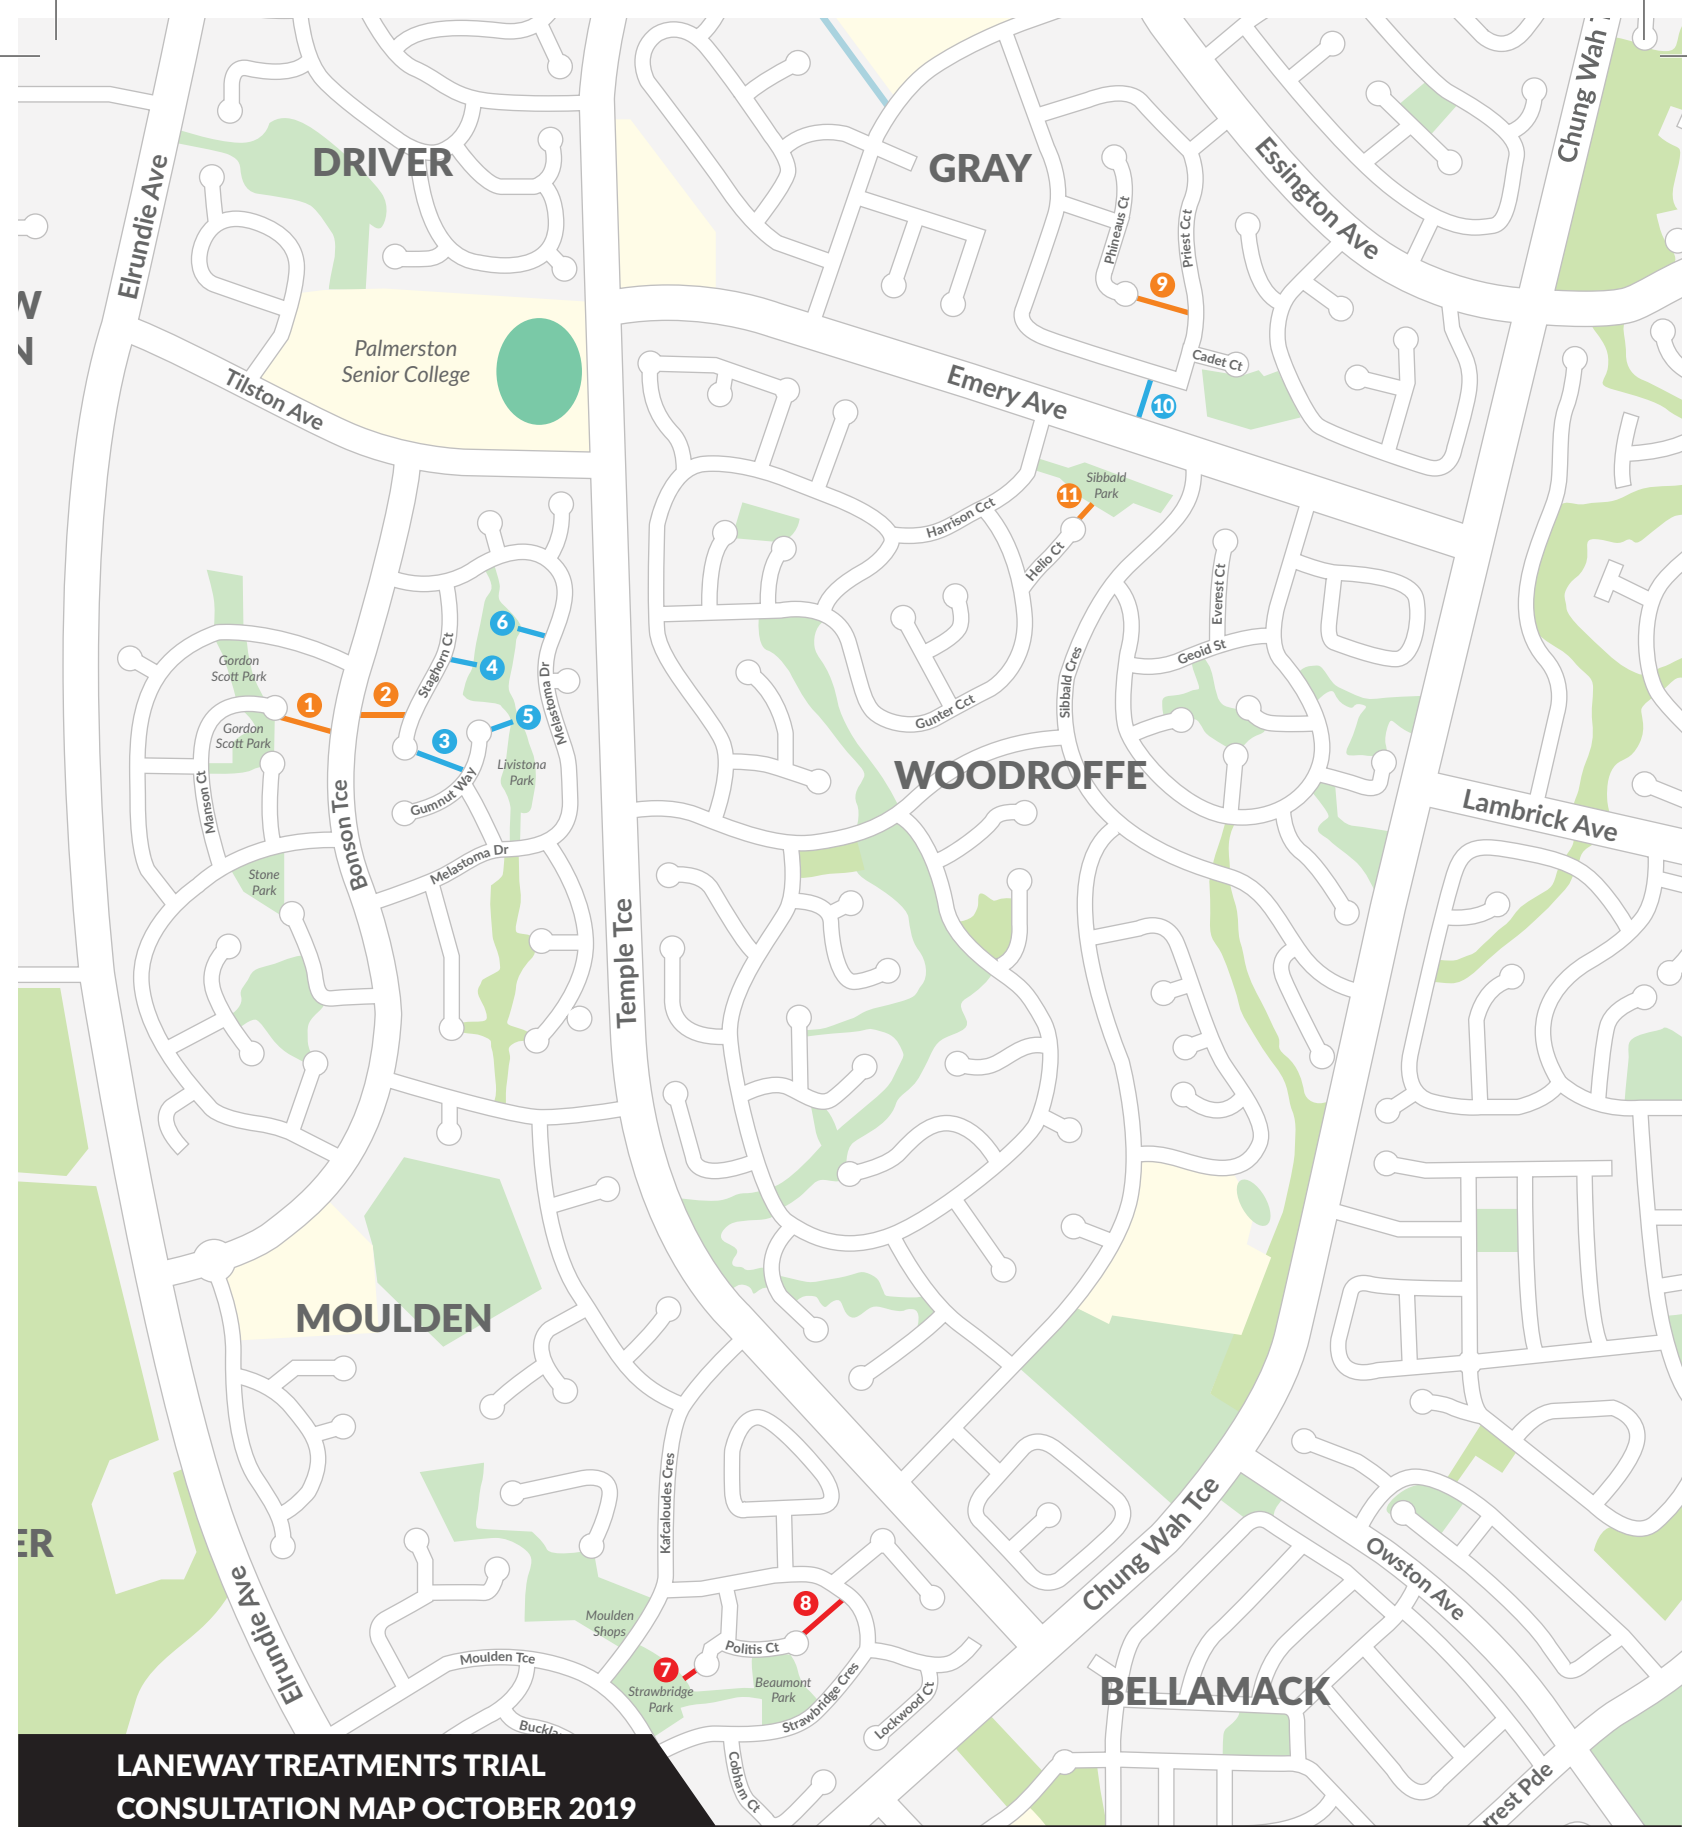

Information gathered throughout this trial will be used to develop a draft policy to guide decision-making on laneway treatments into the future, including closures.
