PALMY DIGITAL CREATIVE PROGRAM

City of Palmerston has collaborated with Larrikin Interactive, Level Up Esports and Purple Cookie to create three exciting opportunities for anyone interested in Game Development or Twitch Streaming.

2 DAY WORKSHOP - SO YOU WANT TO WORK IN THE VIDEO GAME INDUSTRY?
Video game development is the most multidisciplinary creative space in the world. Designing a videogame requires the coordination of musicians, technical artists, programmers, narrative designers, producers, community and marketing specialists and business analysts, to name a few!
Because of this, it means that almost anyone can contribute to developing a video game, in their own way. Come along to our 2 day workshop to learn how to get into game development and kick start your next career!

9 WEEK PROGRAM - GAME DEVS UNITE
City of Palmerston are excited to sponsor 15 young people aged 15 to 25 to participate in our next Game Development Program 'Game Devs Unite'. Hosted by Dylan Bennett from Larrikin Interactive and supported by Level Up Esports, they will run a 9 week program teaching you how to develop your very own computer game!

**1 DAY WORKSHOP - HANDS-ON INTRODUCTION TO TWITCH STREAMING**
Learn how to get started with Twitch TV and streaming your favourite video games live online! This workshop will walk you through everything including setting up your channel, picking a streaming platform, equipment and software, branding and design and growing your network and following.

2 DAY WORKSHOP

SO YOU WANT TO WORK IN THE VIDEO GAME INDUSTRY?

DAY 1
23/10/2021
12:00PM - 5:00PM

DAY 2
24/10/2021
9:00AM - 2:00PM

DURACK ARTS CENTRE

WE WILL BE COVERING

GAME DEVELOPMENT/ PROGRAMMING
Learn to use popular free game engine Unity

GAME ART
Learn to use popular and free Blender (3D art) and/or learn to draw pixel art (2D art)

GAME MUSIC
Learn to make basic game music and import it into your game

GAME BUSINESS
Learn how to analyse the market and estimate how much money your game will make

GAME STREAMING
Learn what goes into streaming, i.e. what equipment is needed, how many hours it takes and what to expect.

WHAT YOU NEED TO BRING

This is a hands-on event! That means you will be ACTIVELY using the programs and tools. This means you will need a laptop that can run software such as Unity, and have it installed before the workshopbegins. A full list of the required software will be emailed to you before the event. If you do not have an appropriate laptop, please let us know so we can arrange one for a loan. You will also need to bring food and a water bottle.

COST: $30
Tickets are heavily subsided thanks to the City of Palmerston's generous support.
Lunch will be provided on both days. BYO snacks and water.

One ticket is for both days. While we understand everyone has commitments, we really encourage full participation across both days. Please let us know in advance if you cannot make both days as our numbers are limited and we need to prioritise those who can stay for the full event.
