Question Overview: Where is staff mandatory reporting of kids at risk and out of school both school age and drunk, 24/7 pre-school children at risk?

City of Palmerston Response:

At the time of this question, it was school holidays and there was an increase of people in the library including young people. When City of Palmerston staff observe potential for concern with patrons, appropriate actions are taken including reporting. City of Palmerston does not accept inappropriate behaviour at our sites, including the library, and such behaviour is managed appropriately.
